Cincinnati Academy of Professional Psychology

Thank you for your interest in the Cincinnati Academy of Professional Psychology. We believe that membership in CAPP can benefit you and your practice, as well as allowing you to make a contribution to both the profession of psychology and the interests and well being of your clients. In these days of rapid changes in health care delivery, only well supported groups can be heard in advocating for the needs of mental health users. Read about other benefits on the enclosed "Membership Benefits" page.

Enclosed you will find a membership application. Please consider joining us in the professional community. We look forward to hearing from you! If you have any questions, please call Laura Wilson at 513-779-2181.

So that you can better understand some of the questions on the application, the following is a brief description of the publications and services offered by CAPP.

DIRECTORY: The Directory is published every other year and includes the names of ALL CAPP members, their addresses, office phone and fax numbers, and practice areas of special interest. It also includes a geographic locator based on office addresses and a cross reference section for the specialty areas to make it a more useful guide for those professionals who use it to make referrals to psychologists. In the past, the Directory has been sent to all area psychologists as well as to psychiatrists, physicians, hospitals, and attorneys. We hope that it serves as an important referral source to these professionals.

WEB SITE: CAPP maintains a website at www.cappnet.org. It lists all CAPP members, their office address, phone number, and practice areas of special interest. It is our hope that it serves as a valuable tool to the general public when searching for a psychologist in the Greater Cincinnati area.

MEDIA GUIDE: This booklet is published every other year and is distributed to various members of the print and broadcast media in the Greater Cincinnati area. It includes the names of only those CAPP members who choose to be included, their office address and phone number, and specialties which they may be willing to discuss with the media. (Home addresses and phone numbers are NOT included in this publication.)

REFERRAL SYSTEM: A referral and information service is maintained by CAPP. All CAPP members are part of this system. Referrals are made on the basis of clientele served, specialty area, and geographic area. We try to give each caller the names and office phone numbers of three different CAPP members and suggest that they call each to see which one may best suit their needs. Every effort is made to rotate the names of CAPP members as much as possible.

SPEAKERS' BUREAU: We occasionally receive requests for speakers from schools, churches, civic organizations and businesses. If you so choose, we will put you on our list to contact when we receive such a request. Our policy is that CAPP members will do this as a community service and ask for no fee or honorarium. When a request is received, the CAPP secretary will contact you to see if you are interested in a particular speaking engagement. IF you are interested, you will be given the name and phone number of the person requesting the speaker so that you may contact them directly to work out details.
